IMPROVE MCHENRY MILESTONE!

Concrete Pour & Contest Winner

Last week, the Improve McHenry team reached another project milestone!

Construction crews completed the second concrete pour for the new western half of the McHenry Avenue bridge. A total of 96 trucks were required to deliver the extraordinary amount of 910 cubic yards of concrete to the project site.

What's more is that crews completed the pour in just one day!

Improve McHenry is moving along

Project progress update

The McHenry Avenue Corridor Improvements Project is now 65% complete! The project continues to progress on schedule, and is anticipated to be completed in 2020.

We have a winner!

Social media contest

Congratulations to Ken Cornick for being the first to guess that 96 trucks were required to deliver a whopping 910 cubic yards of concrete for the latest Improve McHenry milestone.

Yesterday Ken met Victor Wong, one of the County's engineers. Victor presented Ken with a construction poster of the McHenry Avenue Bridge!
